

CREATING SUPPORTIVE

HOME LEARNING ENVIRONMENTS

FOR CHILDREN

A DEDICATED SPACE

Create a space for your child dedicated to learning.

- Make sure they have all the tools they need
- Try your best to minimize distractions
- If you have multiple children sitting around the kitchen table, you can use a presentation board to create separate spaces for each of them

ROUTINE IS KEY

Take the time to help your child in creating and establishing an after-school (or home learning) routine.

- Use a checklist
- Create a colourful routine clock
- Adjust as needed to reflect changing realities

SHOW INTEREST & POSITIVITY

If your child struggles with an assignment or lesson, show them how to do it by using a similar example and guiding them through the steps.

Don't know how to do it either? Search for a tutorial together!

TAKE REGULAR BRAIN BREAKS

Take a break between subjects or when a lesson is particularly challenging.

Get up and move! Take 5-10 minutes to dance or juggle or stretch - whatever feels fun.

STAY IN CONTACT WITH YOUR CHILD'S TEACHER

Don't hesitate to ask questions or seek advice. Remember, it's a partnership!
