President's Message

Arthur Ayers

As the fiscal year draws to a close and we prepare to announce the appointment of a new Executive Director, the Association continues to be active in the English-speaking community.

The Association held its annual "Quiz Night" and silent auction at the Knights of Columbus Hall, on Friday, March 10th. We are very grateful to all those who attended and donated items for auction, as well as our dedicated volunteers.

The Association was participating in the Metropolis Conference Pre-Forum on community engagement and the integration of English-speaking newcomers to Quebec on March 15th, in Montreal. The event is sponsored by our parent organization, the Quebec Community Groups Network and Immigration, Refugees and Citizenship Canada.

On Saturday, March 4th, the Association held its first of two community consultations in the northern reaches of the English-speaking

community, in Shawville, regrouping the communities and organizations of Shawville and Campbell's Bay.

We will also hosted a networking roundtable of English-speaking organizations in (Hull) Gatineau on Saturday March 25th at Heritage College.

We want to know what matters to you and invite you to come to our consultations to voice your concerns and opinions to us!

Patrimoine Canada(ian) Heritage recently renewed its annual grant to the Association, and we are pleased to announce that this will allow us to continue to serve the English-speaking community and provide the information, support and activities that have forged our place therein.

Many thanks to all for your devotion and efforts.

Arthur Ayers,
President

Executive Director's Message

Farewell, My Friends!

I have immensely enjoyed the last twenty months of employment as the Executive Director of the Regional Association of West Quebecers.

It has been a pleasure working with the President, the Executive Committee Members, the Board of Directors, and the many volunteers.

Ricardo, you have been the consummate professional, always supportive, ready to go that last mile to make things right. You have been the perfect accountant for our association. Thank you again!

Aldo, my comrade-in-arms, always there, King Tech. We have learned so many things together over the last year and a half. We have seen

RAWQ grow to be so much more. Keep growing!

Aldo and Ricardo, I look forward to continue to work with you both as a volunteer in the future.

I pledge my support to the new Executive Director and look forward to working with you during the transition period.

And to you, all my friends, we shall meet again on Wednesday, June 7th, 2017 at 6:30 p. m. at the Western Québec Career Centre for the RAWQ Annual General Meeting where we will continue to plan our future together in the West Québec region.

Bye for now!

Brian Rock,

Youth Conference

RAWQ's Regional Youth Conference was held on Saturday, February 25th, 2017 at 10:00 a. m. at Cégep Heritage College. This Regional Youth Conference was meant for students in Secondary III, IV, V, and Cégep I, II, III. It was co-sponsored by the Department of Canadian Heritage of the Government of Canada, Mr. André Fortin, Member of the National Assembly of Québec for the riding of Pontiac, Ms. Maryse Gaudreault, Member of the National Assembly of Québec for the riding of Hull, Mr. Mike Duggan Councillor for the City of Gatineau, and the Youth Committee of the Regional Association of West Quebecers (RAWQ).

At the conference, we had the participation of the following panelists:

- André Fortin, MNA for Pontiac
- Caryl Green, Mayor of Chelsea
- Sylvie Goneau, Councillor of Gatineau for the District de Bellevue
- Audrey Bureau, Senior Advisor for MP William Amos
- Jim Shea, Chairman of the West Quebec School Board and QCGN President

The invited panelists spoke about the duties and responsibilities of the office they hold, the youth issues they deal with, and why they feel that it is so important for youth to become more involved in the political process, and to volunteer in their communities. This was followed by a question and answer forum.

After the Q & A forum, RAWQ gave away eleven Outstanding Youth Leadership Award Certificates and a fifty-dollar (\$50.00) cash bursary to each of the Award recipients to encourage them to stay active and participate in their communities.

Right after the Awards, the students participated in a Boot Camp on *How to participate in Meetings*, where they learned about recording Minutes, following and drafting an Agenda and Robert's Rules of Order.

All guests were invited to a complimentary lunch, then the students participated in the afternoon workshop of Young Quebecers Leading the Way, sponsored by the Québec Community Groups Network (QCGN).

Quiz Night

Many thanks to the volunteers, donors and participants who contributed to the success of the 6th Annual West Quebecers Quiz Night and Silent Auction. All of the Auction items were sold, there were lots of happy prize-winners and Quiz participants enjoyed the challenging questions.

A Moment with Councillor Sylvie Goneau

The Making of a Local Politician!

People often ask me who I am and where I come from. “What is your background and why did you become a politician?” Those are fair questions on the eve of another municipal election.

I am homegrown and my family has no political ties or expectations. My goals are not politically driven for a seat at the provincial or federal level. I am not retired, looking to keep myself busy with local politics or returning to my city after a long period away. No, my focus has been on our city since I can remember! I raised two children in Gatineau, and my husband of 25 years and I share the family house with my elderly father. I was born here and I’ve spent my whole life living and volunteering in our city. I am very proud to be a francophone, bilingual Canadian who lives in a Quebec city called Gatineau.

Just like you, I dream of a better city where we can all afford our taxes, where we all have access to clean water, and our politicians are allowed to do their jobs and debate on your behalf. We need to focus on building a strong local economy. We also need to spend our taxes wisely so you can keep more money in your pockets to do the things you want to do. I feel the city can improve the basic services you expect like snow removal, so you can get to work on time and also fix our roads so your car and our buses don’t break down. Security has always been of major importance for me even before becoming the volunteer Regional Director, first aid respondent and instructor for Saint-John’s Ambulance many years ago. Our children need to be safe when they are walking to school and to the park, like we did when we were kids. With our aging population, we also have to consider our elders’ wellbeing and safety. Families need good libraries and well maintained municipal infrastructure for their sporting and cultural needs. This has been my vision for the last eight years as a municipal councillor, and it is how I intend to keep making my decisions. What are the advantages of spending your whole life here? I know the issues and have grown up knowing the rivalry between sectors. This means we need to be particularly attentive to each other’s needs if we are going to build a united city. We have to ensure that every sector receives its fair share of services and infrastructures. For example, if we are to have a vibrant downtown, Hull will need, to name a few things, access to food, sporting and cultural facilities and municipal projects we can all be proud of.

Aylmer on the other hand, is a distinctive heritage community that should showcase its uniqueness including water sports. We have to pay special attention as to not let development drown out the existing architectural beauty of this sector and address the transportation issues. Those are some examples, but every place in Gatineau, whether it is Buckingham, Masson, or Gatineau sector, they are all as important and different.

But one thing is true, no matter where you live in our great city, I see a future where we can adopt healthier lifestyles, spend more time with our families and socialize with our friends. We achieve this by better building our communities, with access to stores, schools, parks and restaurants. Did you know that in most of the countries where the bicycle is used as a primary mode of transportation, people have access to all these facilities within two kilometers of their homes? We need to start building our cities around what we need.

We can look forward to a brighter future together. I would love to meet with you and talk about your needs, your dreams and your future life in our city. Send me an e-mail at mmesylviegoneau@gatineau.ca You can even call me at 819-360-6659 (I am in town on weekends).

Let’s build a city we can all afford and be proud to call home.
