LOYOLA CAMPUS Concordia University

**38<sup>th</sup> Annual Convention**

# A University For All Seasons

Think of it. At Concordia, some 23,000 full- and part-time students ranging in age from 18 to 70 follow courses both day and evening on an almost year-round basis. That's why we call ourselves a university for all seasons.

At our downtown Sir George Williams campus and out in the west-end at the Loyola campus, Concordia offers a wide range of courses in Arts, Science, Commerce, Administration, Engineering, Computer Science and Fine Arts.

In addition to a regular degree

programme structure, Concordia maintains several smaller groupings — institutes, colleges and centres — to extend educational services into specialized fields. There is a mature student entry for those over 21 and various Certificate and Diploma programmes also serve to broaden the scope of the University's service to the community.

There's a lot more to tell you about Concordia, so why not contact the Liaison Office at 482-0320, Local 245 or call 879-4233.

## **GORDON PATERSON AWARD**

for outstanding service to the education of children

### **ERNEST SPILLER**

Born and educated in Quebec, Mr. Ernest Spiller has had a long and distinguished career as a scholar, teacher, principal, school board administrator and currently as Associate Deputy Minister (Protestant) M.E.Q.

Mr. Spiller graduated from West Hill High School followed by a Bachelor of Arts degree and High School Teaching Diploma from McGill University. Later he earned a Master of Education degree from the University of Pennsylvania, Philadelphia, USA and was the recipient of the award of the Institute of Education from the University of London, England.

Mr. Spiller commenced his teaching career as a history teacher at Lachine High School for the PSBGM where, among his many extra-curricular activities, he was teacher representative of the Home and School Association executive. His first principalship was served at Carlyle School in the Town of Mount Royal followed by Westpark School in Dollard des Ormeaux and as Vice-Principal of Verdun High School.

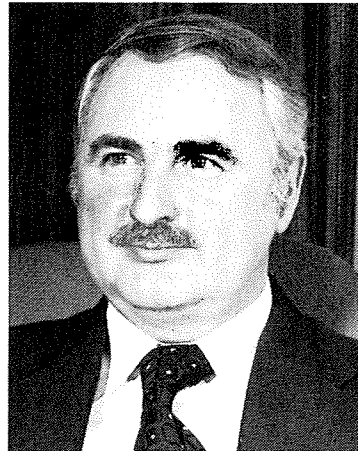

As an administrator with the PSBGM he served in many capacities: Director of Personnel, Regional Director, and Deputy Director General. He was chief negotiator for the Quebec Association of Protestant School Boards during the first negotiations at the provincial level 1967-70.

From 1975-79 he served as Assistant Director-General for the School Council of the Island of Montreal followed by his present appointment as Associate Deputy Minister, M.E.Q.

Professionally he has been active in the past with the Provincial Association of Protestant Teachers, Association of Directors-General of School Boards, Quebec Association of School Administrators and has been a member of the Board of Directors of the Canadian Education Association since 1975. Mr. Spiller served in the Royal Canadian Navy during the Second World War. An active and keen sportsman, he has participated in a number of sports: hockey, curling, squash.

Mr. Spiller has recognized the role of parents in education. As an independent voice in education QFHSA has cherished its links to the M.E.Q. through the offices of the Associate Deputy Minister. Mr. Spiller has always responded to our concerns, sought our advice on matters affecting parents and children in education, participated at our leadership conferences as well as at the A.G.M. At this particular time in the history of education in Quebec it is fitting that we should recognize someone who has literally dedicated his working life to service in education.

The Gordon Paterson Award is given to honour an outstanding educator who has also encouraged parent participation in the education of their children. Ernest Spiller is a most worthy recipient of this award.

## **LESLIE N. BUZZELL AWARD**

for outstanding service to Quebec Federation

### **GORDON PERRY**

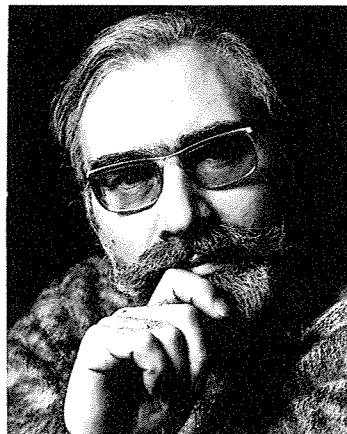

Gordon was born in London, England, and educated at the Royal Masonic Schools and the Rugby College of Technology and Arts where he graduated in electrical and mechanical engineering. He came to Canada in 1957 and is presently employed with Bell Canada in Internal Communications. Gordon is the father of two children, Mark and Michelle, who are students at John XXIII/Dorval High School.

Gordon began his involvement in Home and School at the local level when he was elected president of Courtland Park Home and School Association in his first year! From there he was active on the executive of Dorval High Home and School Association and was a member of the Major School Change Committee which saw the eventual amalgamation of John XXIII and Dorval High Schools.

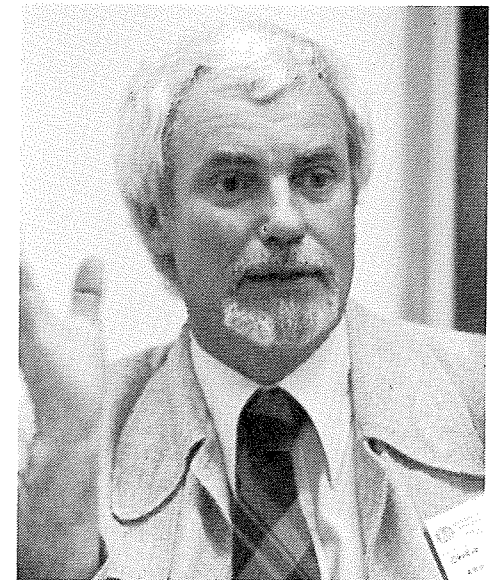

In 1975 Gordon assumed the task of preparing the layout of the AGM program book and has been responsible for its professional calibre ever since. In 1976 he began working on the layout of the Home and School NEWS and spends hours of his limited leisure time preparing the five issues each year. The quality of QFHSA's NEWS is due in no small part to Gordon's efforts.

Along with these activities Gordon has served Federation as a Vice-President from 1975-77; Recording Secretary 1977-78 and again in 1981-82. He has agreed to have his name stand for Recording Secretary for 1982-84. As co-chairman of the QFHSA Publicity Committee, Gordon undertakes all the audio-visual and photography arrangements for our press conferences, leadership conferences and annual general meetings.

The Buzzell Award is meant to recognize service to Quebec Federation of Home and School Associations at the provincial level as well as the furtherance of the aims and objectives of Home and School. Gordon Perry has served Federation well and the quality of his contributions has been outstanding. He has made us look good many, many times. Gordon is a worthy example of the qualities this award honours.

## **President's Message**

On behalf of the Board of Directors may I welcome all of you— delegates, members, observers and guests—to the 38th Annual Conference of the Quebec Federation of Home and School Associations (QFHSA).

In a year when we have been witness to, and sometimes unwilling partners in, so much educational and social confusion and turmoil, it is encouraging to know that there are still a large number of people willing to face and grapple with the serious issues of life.

This year's conference addresses the question of where the family in general and education in particular is going in the Eighties. What is enduring amid all this change is the basic concern of parents for the welfare of their children. What can we do as parents to ensure that foreseen and unforeseen changes are for the benefit of our children and not to their detriment? To sketch out the foreseeable changes and their implications we have invited distinguished speakers to address you.

To provide an opportunity for interaction with parents, the workshops are designed to permit an intimate setting wherein panelists and audience can exchange views and explore implications. We hope you will feel free to participate fully.

Today you will be meeting many people of various origins, backgrounds and experiences. If we can all leave this conference having learned something which we can use for the common good and having shared something of ourselves with others, then I will consider this conference a success.

*Sincerely,*

**Owen Buckingham**

# CONVENTION PERSONALITY

*GUEST DINNER SPEAKER, MAY 14, 1982*

Kari Balzersen Quraeshi, home economist and teacher, was born and raised in Norway where she received her diploma from the College of Home Economics as well as graduating from the State Teacher Training College in Oslo. Later she received her M.Sc. in Home Economics Education from Oklahoma State University and a further B.A. in Sociology from Concordia University, Loyola Campus. In addition, Mrs. Quraeshi holds a diploma, Teacher of Music, from the Conservatory of Music in Oslo, Norway.

Mrs. Quraeshi is an active member of the Quebec Home Economics Association and the Canadian Home Economics Association where in 1979-80 she was the Quebec representative to their Committee on Human Development. In 1981 she was chosen as the Canadian Home Economics Association representative to the International Federation for Home Economics.

Mrs. Quraeshi is married, the mother of four children and presently on staff at Riverdale High School as a guidance counsellor and home economics teacher.

She is especially interested in family life education and we look forward to having Mrs. Quraeshi share her ideas with us on

**WQ** Protestant Regional School Board of Western Quebec

We believe that the existing structure of locally elected school boards works because

- they provide a check and balance between the state and the school
- they protect the language, cultural values and traditions of the educational communities which they represent
- they ensure an educational system which responds to local needs and aspirations, as expressed by parents
- local school board representatives, democratically elected, are readily accessible and accountable to the communities they serve.

Best wishes for  
a successful convention

Our workshop leaders will give background and an update on this new standardized curriculum for Quebec schools. Implementation has already begun and will continue until 1986. What are the implications for English education? <b>Betty Bouchett</b>, Treasurer, QFHSA <b>Bill Corrigan</b>, Math Consultant, LSB <b>Rod Elkin</b>, Exec. Director, PAPT</p> <p><b>4) TECHNOLOGY: KIDS AND COMPUTERS</b> It is necessary that they learn NOW how to use them as one of the many tools (e.g. calculators, telephone, photocopy machine) available to them. To the gifted child, the preschooler, the learning disabled, the playful child, the bored child, the homework-laden child as well as the average child, the computer is an exciting learning instrument. Your children have no fears of using computers; come and learn why you shouldn't either. <b>Rod Wiener</b>, Vice-President, QFHSA <b>Iain Mackay</b>, Guidance Counsellor, LSB <b>Stanley Squires</b>, Head, Children's Services, Oakville Public Library. <b>Joan Wiener</b>, William Latter School, South Shore.</p>	302
