Introduction

Bright Beginnings is dedicated to supporting the English-speaking families in the Gaspésie and Magdalen Islands. Our mission is carried out through:

- Collaborating with health and community partners to improve access to essential services
- Organizing engaging and educational activities for both parents and children
- Providing specialized and targeted information and training for parents

We understand that as a parent, it can sometimes be challenging to find and acquire the services you need for your family. To support you in this process, we've created this guide, which combines early childhood resources in one convenient location.

We hope this guide will make your life a bit easier and encourage you to take full advantage of the many services and programs available to you in your region.

418-752-5995

If you need assistance connecting with any of these services, please don't hesitate to reach out - we are always here to help!

Pregnancy

Integrated Health and Social Services Centre (CISSS) Gaspésie

The CISSS family, childhood and youth program (programme Famille-enfance-jeunesse) supports children from 0 to 18 years old, pregnant women, and new parents. Services offered include:

- Universal public health services (nurses)
- Prenatal clinics and meetings
- Postnatal visits
- Vaccinations clinic between two months and five years
- Developmental screening clinic between two months and five years
- Consultations during stressful situations and support of parenting skills

You can find out more by contacting your closest CLSC.

Gaspé Planning Clinic

The Gaspé Planning Clinic has a regional mandate and offers the following services:

- Contraception: information, assessment and advice, prescriptions, IUD and emergency contraception.
- Abortion: procedure and decision support.
- STBBIs (sexually transmitted and blood-borne infections): information, anonymous screening, treatment and follow-up.
- Fertility: information, assessment and advice, investigation and insemination.
- Anonymous pregnancy tests.

Midwifery-midwives/ Nujiapoqonmuet usgijinu'igtug

From the early weeks of pregnancy, through natural labor and birth, and followed by postpartum care for the first 6 weeks of your baby's life, midwives offer choice-centred health care in the Gaspésie.

- During appointments with your midwife, you'll share your concerns and questions, build a trusting relationship, and prepare for your baby's arrival.
- All the necessary prenatal tests and exams are available and many, like regular bloodwork or pap tests, can be done during your visits.
- Your midwives are available by cellphone for emergencies, day and night.
- Midwives offer a bilingual, up-to-date lending library on subjects surrounding pregnancy, birth and parenthood.
- Families can choose to birth with their midwives at the Maria Hospital or at home.
- Midwives are committed to supporting your breastfeeding needs and goals.
- After giving birth, your midwife will do home visit checkups on days 1, 3 and 5. Then you'll come and show off your new baby at the midwife's offices at 2 and 6 weeks postpartum.
- Midwifery care is fully funded by the RAMQ and a service of the CISSS Gaspésie. It replaces traditional medical appointments. High-risk medical care is never out-of-reach, if and when needed.
- For more information, you can sign up for an on-line information session - or better yet - call to speak with a midwife about your needs.

Prenatal Classes

You're pregnant, congratulations! A time of joy, but also one of questions and sometimes, worry. It's the start of a new life for you, your partner, your baby, and your family. There are many things to discuss and many questions that arise during pregnancy. Prenatal courses are available to help you.

For information, contact the CLSC closest to you.

- French classes are offered at la Maison de la Famille in Bonaventure and Avignon.
- English classes are offered at Family Ties in New Carlisle every year.

OLO Program

The OLO program supports pregnant women who live under financial stress. This program provides the opportunity to obtain essential food, eggs, milk, frozen vegetables as well as vitamin and mineral supplements free of charge. You must be referred to the program by a nurse/midwife at a CLSC.

For more information on the OLO program:

fondationolo.ca/en/

SIPPE Program

We all want the best for our children, but parenting isn't always easy. The SIPPE (Integrated Perinatal and Early Childhood Services) program can give parents a helping hand during pregnancy as well as when the baby arrives until they start school. This program is intended for future or new parents who are experiencing financial difficulties and either feel isolated or alone, or who do not have a high school or vocational diploma.

Services include:

- Support and personalized follow-up according to parents' needs for school, housing or social assistance.
- Ideas for parent-child activities that aim to simulate children.
- Information on health, marital relationships, child development and parenting.
- Enriching group meetings with other parents to discuss and share.

To receive these services and support, contact your local CLSC.

From Tiny Tot to Toddler

From Tiny Tot to Toddler is a free practical guide that contains scientifically supported information about pregnancy, delivery and the first two years of a child's life. This guide is given to all new Québec parents at the beginning of pregnancy follow-up and to those involved in an adoption process.

You can also consult the guide here:

 www.inspq.qc.ca/en/tiny-tot

Government Services for New and Future Parents

This online guide provides an overview of government programs and services available to new and future parents including registering for Québec's health insurance plan, information on financial assistance, work leave, birth certificates and more.

 www.quebec.ca/en/family-and-support-for-individuals/pregnancy-parenthood

Fostering or adopting A CHILD

Adoption of a Child Born in Québec

A person wishing to adopt a child can apply for regular adoption, adoption under the Banque mixte program, or both.

- Regular adoption applies to both children whose parents have placed them up for adoption at birth, abandoned children or children that are orphaned at a very young age.
- Adoption under the Banque mixte program involves children who have been entrusted to a foster family by the Directeur de la protection de la jeunesse (Director of Youth Protection) in order to be adopted.

418-368-1803

For general information on adoption:

www.quebec.ca/en/family-and-support-for-individuals/pregnancy-parenthood/adoption

Foster Parenting

The CISSS de la Gaspésie has an ongoing need for new foster families for young people from the Gaspé Coast and the Magdalen Islands.

- Are you interested in welcoming children or adolescents who need a warm, loving and secure environment, to your home? For short or longer periods of time?
- Do you want to give a helping hand to the children of our region?

If you would like to become a foster family, please contact:

1-833-368-2498

recrutement.famille.ciasssgaspesie@ssss.gouv.qc.ca

Bringing Baby HOME

When you return home after the birth of your child, a nurse or midwife will contact you to check on you and your baby. In addition, they will arrange a home visit with you for a complete health examination and to answer your questions.

Supportons-Lait

Supportons-Lait offers information, support and resources to women wishing to breastfeed or who are breastfeeding including:

- Information evenings on breastfeeding
- Support for breastfeeding and motherhood by a breastfeeding godmother, telephone conversations, discussions via social networks and home visits if necessary
- Friendly meetings which allow mothers, fathers, godmothers, grandparents or any caregiver to meet and recharge their batteries. The subjects concern breastfeeding, motherhood, but also several realities of daily life with a baby.

To find out the dates of upcoming activities:

418-391-2166

info@supportons-lait.org

[supportonslait](https://www.facebook.com/supportonslait)

Baby & Me

Family Ties New Carlisle offers Baby & Me once a week for parents and babies of 0-12 months. This program offers mutual support, sharing of information, professional workshops and socializing. Ten-week sessions are offered three times per year.

418-752-7265

FamilyTies New Carlisle

www.family-ties.org

Rehabilitation Centres - Centres de Réadaptation

Is your child between 0 and 5 years old and having difficulty expressing themselves or having physical movement difficulties? Do you suspect your child may have developmental delays?

The Rehabilitation Centre provides occupational therapy, speech therapy and physiotherapy. You can contact the Guichet de réadaptation which will process your request and put you in contact with the appropriate resources.

Guichet de réadaptation du CISSS de la Gaspésie
Monday to Friday, 8-12pm and 1-4pm

1-844-GUICHET (1-844-484-2438)

Accroche-cœur Community Social Pediatrics Centre

Accroche-cœur provides an alternative for children and families in very vulnerable situations who do not use traditional services. In addition to the service centre located in Chandler, the mobile clinic provides services from Shigawake to Matapédia.

Community social pediatrics integrates medicine, law and social services, allowing the service:

- To offer personalized care and services to children in difficulty aged 0 to 18 years old
- To detect, reduce or eliminate toxic stresses affecting their development while respecting all of their fundamental rights
- To give them and their families back power and hope in order to regain control of their lives, while being supported by their community and institutions.

 info@pediatrieaccrochecoeur.com
 Accroche-cœur centre de pédiatrie sociale en communauté Gaspésie Sud

Vaccinations

Vaccination remains the most effective way to protect children against certain contagious diseases. It is important to follow the immunization schedule. As soon as your child is 2 months old, you can have them vaccinated at the CLSC or the doctor's office.

Mon arbre à moi

As part of the Mon arbre à moi campaign, every child born or adopted during the year receives a tree seedling that grows along with the child. The seedling comes with a growth chart and a souvenir card. Parents must register their child in order to receive a seedling. (in French only)

 www.quebec.ca/agriculture-environnement-et-ressources-naturelles/forets/evenements/mois-arbre-forets/mon-arbre-a-moi

Child Safety Seats

Choosing and using a car seat involves numerous safety precautions and verifications. To make sure your child is completely safe, you must purchase or borrow a quality car seat that complies with the standards in effect.

Children aboard a moving vehicle must be in a car seat adapted to their weight and height until they are 145 cm tall or 9 years of age. A car seat inspection service is offered free of charge so that parents can make sure the car seat they use meets the current safety standards.

For more information visit the website of the Société d'assurance automobile du Québec (SAAQ):

www.saaq.gouv.qc.ca/en/road-safety/behaviours/child-safety-seats

Some professionals at your local CLSC have training to verify that your seat is correctly installed.

Child Care

The Childcare Services Registration Portal (Previously known as La place 0-5)

The Childcare Services Registration Portal promotes a more equitable and transparent allocation of spaces to make life easier for Quebec families.

Secure and easy to use, the portal introduces the same rules for all and a uniform, national admissions policy to all childcare centres and subsidized day care centres.

From now on, **only children already born or newly adopted can be registered**. The desired start date for childcare will now be used to allocate spaces, rather than the registration date on the platform. This new approach aims to better meet the actual needs of families.

[www.quebec.ca/en/family-and-support-for-individuals/
childhood/childcare-centres/registration-portal](http://www.quebec.ca/en/family-and-support-for-individuals/childhood/childcare-centres/registration-portal)

Centre de la petite enfance – CPE (Childcare Centres)

Childcare centres (or CPEs) are Québec non-profit organizations dedicated to the care and education of young children. Their mission is to ensure the well-being, health and safety of the children in an environment that stimulates their development. They prepare children for school entry and help to prevent learning and behavioural difficulties.

Zero Place

Have you had trouble finding daycare or has the lack of daycare had a direct impact on you or your family? On the Gaspé Coast and the Magdalen Islands, it is estimated that there are currently over 347 places lacking in educational childcare services. In addition to restricting women's access to the labour market, this situation has significant negative consequences on the overall health of families, in addition to the financial and social consequences it poses.

The Table de concertation des groupes de femmes de la Gaspésie et des îles created the website, Zero Place, to understand the consequences of the lack of childcare spaces in our region. This website compiles testimonials from parents/guardians about their experience so we can provide a better and more accurate overview of what is happening in the region. You can share your experiences here:

www.zeroplacement.ca

Education

Eastern Shores School Board

For students to be eligible to attend English language schools in Québec, they need to fall into one of several criteria which can be found on the Ministry of Education website:

 www.education.gouv.qc.ca

Parents or guardians need to make an appointment with the school and bring the following documents with them:

1. Child/student birth certificate with the parent names listed on it
2. The birth certificate of the parent who has their bill 101 certificate to prove they are a Canadian citizen

The school will have registration forms and other documents to fill out and registration usually takes place in January each year. Please visit Eastern Shores School Board's website for more information:

 www.essb.qc.ca

 **418-752-2247**

School Readiness (Early Transitions)

Creating and fostering a close relationship between the family and the school is important to ensure that children develop a positive image of school, so that they are comfortable settling in and feel confident while learning. Bright Beginnings and their partners offer transition activities to parents and children who will be attending Preschool the next school year. Information on these sessions is available at each participating school and through contacting the Bright Beginnings team.

ESSB School Readiness (Parent Volet)

The more a parent participates in their child's development, the more chances a child has of succeeding in school. Eastern Shores School Board and their partners offer various parent-focused activities to ensure that families, parents and children (pre-k and kindergarten) have a positive first experience in the school system. Information on these activities is available at each participating school and through contacting the Bright Beginnings team.

Centre de services scolaire René-Lévesque

To register your child to attend a French language school in the region, you can contact Centre de services scolaire René-Lévesque. The registration period takes place in February of each year.

418-534-3003

Alaqsite'w Gitpu, Listuguj

To register your child, visit the following website to obtain the necessary forms:

www.listugujeducation.ca/ags

Wejgwapniag School, Gesgapegiag

Registration forms are sent to parents in May each year. Otherwise, parents may go to the school to obtain the form and any other information that they may need.

New Carlisle High School Community Learning Centre

The New Carlisle CLC offers several programs and activities for students and their families, including:

- Supporting Transitions for preschool and Grade 6 at NCHS and SPDS. Providing support to Grade 11 students at NCHS (CEGEP visits, student for a day, etc.).
- Opportunities for different workshops for Family Engagement.
- Parent/Guardian and child workshops.
- Afterschool activities for students.
- Collaborating activities for the students with local partners.
- Workshops for parents when available or on demand.
- Training for 12+ babysitting course when available.

The Anchor Academic and Vocational Education Centre

The Anchor provides training according to the needs of the English-speaking community of the Chaleur Bay by offering day and night classes.

 418-752-3848

Community ORGANIZATIONS

Family Ties

Family Ties offers services in English to people of all ages living in New Carlisle and the surrounding area. The organization's vision is a community where everyone is part of the family.

Early Childhood Programs at Family Ties include:

- Prenatal sessions, which offer parents the opportunity to meet with health professionals and discuss a range of topics in order to feel prepared for childbirth and early parenthood.
- Baby and Me group, which supports parents of babies aged 0-12 months through sharing information, access to professionals and creating social and support networks. Three sessions are offered throughout the year (winter, spring and fall) and the group meets on a weekly basis.
- The Halte-Garderie, known as Munchkin Mansion Playschool, encourages school readiness by helping young children to develop age-related competencies and supports parents in meeting their child's needs.
- The Born to Read program, which encourages early literacy by making English books and materials available to families of young children when they see the nurse after birth and when they receive their vaccinations at the CLSC.
- Collective cooking sessions for parents, which offer the opportunity to develop skills and knowledge by cooking together in a fun, social atmosphere.

Bright Beginnings CASA

Bright Beginnings' mission is to support English-speaking families on the Gaspé Coast and Magdalen Islands. Activities include:

- Parent/child activities for parents and preschool students.
- Themed activities offered in-person and online.
- Parent workshops on various themes are offered throughout the year.
- Information about activities, community organizations, and support programs available to families and children in the region.
- Offer assistance to local schools and collaborate to host various activities during the school year.
- Biblionook: a mobile book unit that supports the community action of literacy and competency building. It aims to provide accessibility to reading and books for families in the MRC of Bonaventure.

Autisme de l'Est-du-Québec (ADEQ)

Autisme de l'Est-du-Québec (ADEQ), a non-profit organization established by parents, offers services to the communities of the Lower St-Lawrence, Gaspé Peninsula and the Magdalen Islands. The mission of the ADEQ is to improve and promote the quality of the life of families and friends of people with ASD.

Activities and services

- Support and information for families
- Support in the promotion and defence of the rights of people with ASD
- Education and support in work, recreational and school environments
- Telephone support
- Organisation of support groups, conferences, training and social activities
- Documentation centre
- Facebook and internet site

To become a member of the ADEQ, please complete the form on their website:

 autismedelest.org/en

Day Camps

For information on day camps in your area, please contact your local municipality for details.

Thrift Stores

Buying at second-hand stores is a great way to cut down on the costs of raising a child and is also good for the environment! It is important to note that the dates and times are subject to change without notice.

Helplines FOR PARENTS

Info Santé

811

Info-santé 811 is a free and confidential telephone consultation service. Dialling 8-1-1 will promptly put you in contact with a nurse in case of a non-urgent health issue. However, in the event of a serious problem or emergency, it is important to dial 9-1-1 or go to an emergency room.

The service is available 24 hours a day, 365 days a year. Anyone living in Québec can call Info-Santé 811 for themselves or a family member.

Info-Santé 811 nurses evaluate your health situation and give advice based on your condition. They can answer your questions about your health and direct you to the most appropriate resource in your region. Calling Info-Santé 811 often helps to avoid going to a medical clinic or emergency room.

Here are a few examples of situations in which you can call Info-Santé 811:

- You or your child has a seasonal flu that persists for several days and you are wondering if you should go see a doctor
- Your child wakes up with a high fever and you are wondering if you should take them to emergency
- You are wondering what to do in order to relieve itching and swelling caused by an insect bite
- You have questions regarding health network resources

Tel-Jeunes Parent *(previously LigneParents)*

 **1-800-361-5085**

LigneParents' professional counselors offer free and confidential services for parents 24 hours per day, 365 days a year. Also a chat option on the website **www.teljeunes.com/en/parents**

SOS domestic violence

 **1-800-363-9010**

SOS violence conjugale is a non-profit organization whose mission is to help ensure the safety of victims of intimate partner violence (IPV) and that of their children throughout Québec, by offering free, bilingual, anonymous and confidential referral services. They are available 24 hours a day, seven days a week, and can provide direct access to information, support or shelter.

First Resource/ Première Ressource

 **1-866-329-4223**

First Resource has supported generations of parents and their children aged 0 to 18 on a daily basis for over 35 years. Free bilingual and confidential consultations are offered to families in Québec by phone, email or chat, without any time limits.

APPS

Whether you've just found out you're pregnant or you're already enjoying parenthood, it can be tricky to keep track of everything in your life. The good news is that there's no shortage of baby and early childhood apps for parents. We have compiled a short list of some of the most-used and top-rated apps for parents.

Pregnancy and baby tracker

This pregnancy tracker app from What to Expect When You're Expecting helps you prepare for parenthood and guides you through pregnancy day by day and week by week. Simply enter your baby's due date (or use the pregnancy due date calculator if you're not sure) to start tracking your baby's growth. Based on your due date or baby's birthday, you'll receive personalized updates on your baby's development, as well as expert tips, helpful videos and the latest parenting news. You can join a community of parents and parents-to-be, and receive support. Once your baby arrives, you'll get regular updates on her development, as well as expert advice on everything from postpartum healing to sleep schedules to milestones.

Breastfeeding Tracker (such as Baby Feed Timer)

This breastfeeding tracker app allows you to monitor and track various types of baby feedings, input diaper logs and has a sleep and activity timer. Your baby's height and weight can also be measured. This developmental information may be useful to you as well as when you see a pediatrician.

Flo Ovulation & Period Tracker

Flo is a women's health app, that supports women at each stage of their reproductive cycle. It tracks menstruation, cycle prediction, preparation for conception, pregnancy, early motherhood and menopause.

Pregnancy+

This app features expert advice, daily blog articles, mother care tips and interactive 3D models so you can track your baby's development. This pregnancy app has been downloaded over 30 million times by expecting families.

Kinedu

The kinedu app gives you instant access to expert advice on how your baby compares to typical developmental milestones, including mental, physical, emotional, and linguistic health, and provides you with a big database of videos and other guided activities to help your child meet their developmental goals.

Speech Blubs: Language Therapy

This app is home to thousands of language-learning tools for kids of all ages and adults who may want help with pronunciation or overcoming speech challenges. From more than 1,500 activities and games including videos and interactive flashcards to a sticker-collecting feature that helps you track your progress and stay motivated; this app is built around the science that children learn best to speak by observing other children speaking. It has no shortage of tools to help your child learn to observe and imitate the speech of other kids so that they can learn at their own pace while having fun.

Baby Development & Milestones

This award-winning baby app was designed by child experts to help stimulate early developmental factors in your baby. You will have access to daily baby developmental activities, meal plans and recipes for your baby and suggestions for bedtime stories. You will be able to track your baby's milestones and create progress reports as well as tracking your baby's sleep and growth patterns. This app also provides parenting tips and articles.

Peanut

Parenting can be a lonely experience, even with a partner, as it can be hard for others to empathize what you're going through as you carry your child, give birth and then balance your needs with you child's. The Peanut app lets you connect with thousands of other women who have gone through exactly what you have, from trying to conceive to giving your child everything they need to be healthy. Try chatting in real time with other women using a swiping match tool, join group discussions, and share your own topics and advice with others.

DaddyUp

Known as "The dad's field guide to pregnancy," DaddyUp is designed to be a fun, informative tool for expectant dads. Besides the customizable preparations' checklist, a journal to take down notes during the pregnancy, and a weekly progress report, the app offers dads "rugged" comparison for the baby's size at every stage.
