# COVID-19: CONSIDERATIONS WHEN DECIDING TO MOVE SENIORS FROM RESIDENCES AND CHSLDS

- 01 Is everyone in your household supportive of this move?
- 02 Are you mentally, physically and financially able to take on this responsibility for the duration of the pandemic and possibly into the foreseeable future?
- 03 Is your home equipped with the necessary equipment for toilet, bathing and other medical needs?
- 04 Have all members of your family been in isolation for over 14 days and practicing social distancing?
- 05 If someone in your family develops Covid-19 do you have the necessary space to keep a senior protected?
- 06 Should you become sick is there someone else in the home to care for the senior?
- 07 Has the senior residence or CHSLD agreed to the senior returning to their accommodation once restrictions are lifted?  
It is critical to consider the possibility that a displaced senior may lose their accommodation. Before making any decision, ensure you have a contingency plan in place.
- 08 Only seniors who show no symptoms and who live in residences with no confirmed cases, can be moved.
- 09 Family members must NOT enter the residence. They must wait for their loved at the door to pick up their loved one and their belongings.
- 10 Seniors who leave long-term care facilities or residences must have no contact with other residents as they leave.
- 12 Family members who have to move seniors from a different region, need an official letter from the residence to show at police checkpoints.

We acknowledge the financial support of the Government of Canada and the Government of Quebec.
