

Tomorrow and Tomorrow...

As you debate the options and alternatives for the future, we too are currently examining the directions open to our university over the next decade. In fact, this process of deliberation has been very much a part of the evolution of Concordia. With half our student population following degree programmes on a part-time basis during the day and at night, we have developed a particular sensitivity to the changing needs of the community in which we flourish.

However, change has never necessarily entailed the sacrifice of quality at Concordia. In fact, a recent survey of our students clearly indicated that it was the quality of our programmes that attracted many of them to us. We're happy they feel that way but we're not complacent about it. We also realize that the expectations you have as parents and teachers are of particular importance to our future plans.

It is in this spirit that we welcome you to our campus and sincerely hope that your conference will provide us all with a stepping stone to the future.

For information about Concordia University, contact our Liaison Office.

GORDON PATERSON AWARD

for outstanding service to the education of children

LUCIEN ROSSAERT

Born and educated in Quebec, Mr. Lucien Rossaert has had an outstanding career as a student, teacher, principal, and currently as a school board administrator and vice-chairman of the Superior Council of Education.

As a fluently bilingual educator, Lucien Rossaert has contributed to the growth of the teaching of French as a second language within the English-language school system. He also represents the views of the Protestant community, both English and French, as a member of the Superior Council of Education.

Mr. Rossaert graduated from Montreal High School followed by a Bachelor of Arts degree from Sir George Williams University and a First Class Diploma from Macdonald College. Later, he attained a First Class French Specialist Diploma, Macdonald College (Lieutenant Governor's Silver Medal), a Master of Arts from Middlebury College, Vermont, and he holds a Superior Class I Diploma.

His teaching career began as a French specialist at Beaconsfield Elementary School and from there he went on to Lachute High School. He has served as a principal with the Laval School Board at Martinvale Elementary School, Churchill Elementary School and with the Prince Charles and Thomas H. Bowes Schools.

Over the years Mr. Rossaert has held a number of advisory positions in his capacity as a French specialist; as an active member of both the elementary and secondary French Curriculum Committees of the M.E.Q.; as a Technical Advisor, Division of Examinations (MEQ); Examiner in Oral French and Chief Examiner in Written French for the High School Leaving Examinations of the Ministry of Education.

In the area of supervision of instruction, he has been an Inspector of Schools, M.E.Q. He was responsible for the supervision of French as a Second Language, Inspector of French Schools (Protestant) and a member of second language Committees.

As a member of the teaching profession, Mr. Rossaert served as President of the Argenteuil Teachers Association.

In 1977 Lucien Rossaert joined the Richelieu Valley School Board where he is Secretary-General and Director of Student Services. In addition, Mr. Rossaert was named Vice-Chairman of the Superior Council of Education in 1980.

Lucien Rossaert has been a keen and active participant in the activities of Home and School. As a keynote speaker he has addressed our membership on matters related to education both at our local associations and provincially at our Fall Conference and Annual General Meetings. He has always been an enthusiastic supporter of the role of parents in the field of education, willing to respond to our concerns.

The Gordon Paterson Award is given to honor an outstanding educator who has also encouraged parent participation in the education of their children. Quebec Federation of Home and School Associations is delighted to honor Lucien Rossaert in recognition of his unique contributions to education in Quebec.

LESLIE N. BUZZELL AWARD

for outstanding service to Quebec Federation

BARBARA MILNE-SMITH

Barbara was born and educated in Quebec. She is the mother of four children, two of whom are still at university. Her eldest daughter is working on her PhD in History at the University of London, England and her youngest is at McGill working on her nursing degree.

Barbara has been an active Home and Schooler since her children began school, starting at Edinburgh School as Volunteer Chairman (1960). When the family moved to Pointe Claire, Barbara was first Membership Chairman then President at Lakeside Heights (1966-68) and President at John Rennie High School (1972-73). From 1980-82 she served on the Board of Governors at John Abbott College. Barbara has also been an active member of the Lakeshore Regional Council beginning in 1967 as Secretary and, after a short break, she served as Recording Secretary from 1974-1982.

At the provincial level Barbara has been a member of QFHSA Board of Directors since 1975, serving in various capacities — Area Rep, Area Rep Committee Chairman, Conference Chairman AGM, Conference Chairman Fall Leadership, Constitution Chairman, Resolutions Chairman, QFHSA liaison to the Board of the Quebec Association of Protestant School Boards. Barbara has also been a Vice-President (1977-79) and Executive Vice-President (1979-80).

At the national level Barbara is a member of the Board of Directors of the Canadian Home and School and Parent-Teacher Federation as Constitution, Resolutions and Policy Chairman since 1981.

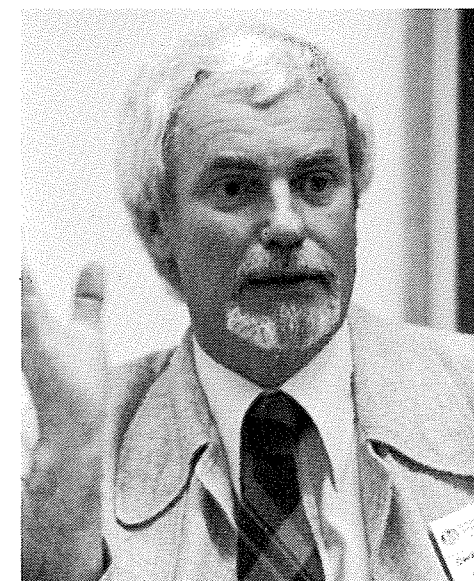

This year alone Barbara did General Arrangements for the Fall Leadership Conference; is Resolutions Chairman; is serving as the Area Rep for Lakeshore II; is a member of the Lakeshore Regional Council; QFHSA liaison to Quebec Association of Protestant School Boards; is in charge of Program Book ads for 1983 AGM and is the QFHSA person in charge of arrangements for the Canadian Home and School and Parent-Teacher Federation annual meeting which is being held in Ottawa this June with Quebec as the host province.

Barbara, in her spare time(!), also lends a hand in the office, is a member of both the Rights Committee and QFHSA Task Force on School Reorganization, is a dedicated homemaker, an active member of her church, and Recording Secretary for the Beaven Round Lake Community Association. Everyone knows that any job Barbara says she will undertake will be well organized and well done.

The Buzzell Award is meant to recognize service to Quebec Federation of Home and School Associations at the provincial level as well as the furtherance of the aims and objectives of Home & School. Barbara is an outstanding example of the qualities the Buzzell Award honors.

President's Message

On behalf of the Board of Directors may I welcome all of you, delegates, members, observers and guests to the 39th Annual Conference of the Quebec Federation of Home and School Associations (QFHSA).

In a year where we have been involved in the fight for our School Boards, a major court case — Bill 101, a year of educational confusion caused by Dr. Laurin's White Paper on Reorganization and teacher unrest, it is encouraging to know that there are a number of people still willing to take an interest in just what is happening in education today and what will happen in the future.

This year's conference has as its theme "Focus on Tomorrow: Alternatives and Options". How will the new curriculums prepare for the future? What effects will the new technological trend have on our school system as we know it today? What can we as parents do to ensure that foreseen and unforeseen changes are for the benefit of our children and not to their detriment? In order to help us, as parents, focus in on the implications of these changes we have invited distinguished speakers to address you.

In order to provide for interaction between parents and panelists, various workshops have been designed for parents and speakers to exchange views and to explore in small groups the implications of Technology and various other changes to our educational system. We would encourage you to participate fully in these workshops.

Today we hope as you leave the conference you will have learned something that will be of value to you as a parent in understanding what is happening to our educational system and with this understanding a stronger commitment to working towards the betterment of education for our children.

Sincerely, Owen Buckingham

CONVENTION PERSONALITY

GUEST DINNER SPEAKER, MAY 6, 1983

GORDON B. THOMPSON, P.Eng

Gordon B. Thompson, a distinguished communications consultant, lecturer and writer, was born and raised in Toronto. After graduating with a BASc degree in Engineering Physics, he joined the Northern Electric Company, forerunner of Northern Telecom.

In 1963 he joined Bell-Northern Research and during his twenty years there his attention moved from conventional system engineering towards questioning decisions about the uses of the new technology. This led to an expanding examination of the relationship between information technology and society.

Among his many activities Mr. Thompson is a member of the Professional Engineers of Ontario, Canadian Association for Future Studies and, upon his retirement from Bell-Northern Research in early 1983, was made a Fellow Emeritus of that organization.

In his talk Mr. Thompson will deal with the challenge the new technology presents to our educational institutions, not in terms of how to use it to run better schools, but rather in terms of the necessity to better prepare our students so they can successfully materialize the new technology's potential to produce truly satisfactory social impacts.

We look forward to hearing from Mr. Thompson, one of the world's original and provocative thinkers, on **NEW TECHNOLOGY: A CHALLENGE.**

still

We believe that the existing structure of locally elected school boards works because

- they provide a check and balance between the state and the school
- they protect the language, cultural values and traditions of the educational communities which they represent
- they ensure an educational system which responds to local needs and aspirations, as expressed by parents
- local school board representatives, democratically elected, are readily accessible and accountable to the communities they serve.

9:15-10:30 a.m.	PLENARY SESSION	TECHNOLOGY: EDUCATION FOR TOMORROW Preparing today's students for the change and the challenge of the 21st century. Advances in technology and its impact on society both today and in the future are now being felt in the classrooms of the public schools of Quebec. A panel of experts will examine the many facets of education related to preparing future generations to meet the needs of tomorrow's world. <ul style="list-style-type: none">• Is the New Curriculum for Quebec Schools (Régime Pédagogique) - both elementary and secondary - preparing our students for future career options in the fields of technology? Are facilities and equipment sufficient? The computer in the classroom - a necessary tool?• In the light of advances in technology, how adequate are the current vocational programs offered in our secondary schools? What about training or re-training programs for teachers?• What are the facilities, programs and career options available in technological education at the CEGEP level? In our anglophone CEGEPs?• How does private industry view the public school system re preparing students for the world of work in technology? What are the effects of technological changes in electronic data processing - especially as they affect women in the workforce?	
	Chairman	Pat Jared , Consultant in Student Life and Tech/Voc Education, Lakeshore School Board.	
	Panelists	Dr. Robert Lavery , Director-General, Lakeshore School Board. Dr. John Gradwell , Professor of Vocational Education, McGill University. Charles Joyner , Dean of Engineering Technologies, Dawson College, Selby Campus Co-ordinator. Margaret Fydell , Consultant in Data Processing. Donna Manzo , Vice-President, QFHSA.	
	Co-ordinator

Provincial Association of Catholic Teachers

2005, St-Marc street, Montreal, H3H 2G8
phone: 935-8612

The Provincial Association of Catholic Teachers has always maintained as a primary objective the professional ideals of quality in education. Despite the troubled times in which we presently find ourselves, we, the teachers of PACT continued to commit ourselves to the goal of quality in our schools, not only for the students presently entrusted to our care but also for the future children of Quebec.

We take this opportunity to wish the Quebec Home and School Association continued success in their endeavours to promote quality education, a goal which we share with the parents of the students in our English Catholic community.

SATURDAY, MAY 7, 1983

7:30-8:30 a.m.	BREAKFAST	Available in the cafeteria at the Campus Centre Building, Loyola campus.	
8:30-9:00 a.m.	REGISTRATION	On the second floor, Campus Centre Building. Coffee is available.	MAIN HALL ENTRANCE
9:00-10:30 a.m.	CONCURRENT WORKSHOPS	<p>1) COMPUTERS IN THE CLASSROOM: BOON OR BANE? Are our schools successfully coming to grips with the technological revolution now sweeping the country? Computers are generally invading the classroom and parents are becoming increasingly apprehensive about this new force in education. What is happening re computer education in the classroom? What does the future hold? These and other concerns will be addressed by an educator who is using computers in the classroom with great success.</p> <p>Chairman/Co-ordinator Speaker Dr. Jon Percy, Hudson Home & School Association, and Area Rep., Lakeshore III. Elias Leousis, Teacher, Bancroft Elementary school, and Chairman, Quebec Association of Computer Users in Education.</p> <p>2) KIDS AND STRESS Participants in this workshop will be given a short stress test and then will measure the results. The group can then relate to stress on children and how stressful situations in daily life can affect them. Practical solutions will then be discussed so that more positive relationships can develop between parent and child, school and child and, finally, parent and school.</p> <p>Chairman/Co-ordinator Speaker Peggy MacArthur, Past President, Northview Home & School Association. Patrick Baker, Principal, Spring Garden Elementary School, Lakeshore School Board.</p> <p>3) CAREER 'CHOICES': A COMPUTER AID IN CHOOSING A CAREER Are there shortcuts to a career choice for students? How do students pick a career which fits their capabilities? There are no shortcuts but there is a computer program called 'Choices' which can assist students to identify careers which fit their capabilities. 'Choices' is being used as a pilot program at Lake of Two Mountains High School to help students match capabilities with possible careers. Mr. Ryan will discuss 'Choices': how it aids the students, counsellors and even the parents.</p> <p>Chairman/Co-ordinator Speaker Clive Francis, President, Ecole Primaire Beaconsfield Home & School Association Garth Ryan, Guidance Counsellor, Lake of Two Mountains High School.</p> <p>4) COMMUNITY INVOLVEMENT: A WORTHWHILE INVESTMENT As we focus attention on the future with dwindling financial resources and, in some cases, on diminishing human resources for community projects, how can we as parents, citizens and taxpayers realize the potential in our communities? How to co-</p>	<p>SHEEHY AND FIDELE ROOMS</p> <p>MALONE ROOM</p> <p>OASIS LOUNGE</p> <p>GAMES ROOM</p>
