Villeneuve's comments constitute hate propoganda: AQ

Montreal, Sept. 23 - Alliance Quebec deplores the hate propoganda put forward by Raymond Villeneuve in the Montreal media Monday.

Villeneuve singled out members of the Montreal Jewish community for his abuse on radio and in print.

"All members of Alliance Quebec are proud to stand beside the members of the Jewish community in the face of this vicious threat."

Villeneuve also suggested on CKVL that Alliance Quebec could be bombed. It is our understanding that such threats are against the law.

Alliance Quebec invites the CRTC to investigate the responsibility of broadcasters operating under public license in allowing these kinds of statements to be printed.

AQ has also filed a formal complaint with the Montreal police who are investigating the incidents.
